

The UTM's Strategy for Sustainability and Climate Consideration:

The University of Tunis El Manar follow a very detailed KPI to ensure sustainability and climate matter are respected and dealt with in a clear and transparent way throughout our curricular, research and non-curricular activities. We have a great interest in investigating ways to study climate change and to be environment friendly. We cooperate with different national and international organisations to achieve a better climate change consideration through renewable energies, green technologies and spaces, ecological transport, water management and governance. Details of a selection of projects and plan are provided in the links below:
