

Programme du CJC 2018

Mercredi 18 Avril 2018		
Matin		
08:00 – 09:00	Accueil des participants Soumission des Slides et affichage des Posters	
09:00 – 09:30	Cérémonie D'ouverture	
09:30 – 12:15	Thématique I : Biotechnologies appliquées	
09:30– 10:30	Dr. Sadri ZNAIDI	Conference 1: "Molecular Barcodes: from the Discovery of Biological Circuitries to Drug Target Deconvolution Studies"
10:30 – 12:15	Session I Chairpersons : Dr. Chaouki Ben ABDESSALEM et Dr. Rahma BenABDERRAZEK	
10:30 - 10:40	Emna HANNACHI	O1 "Development of a genetically fused recombinant antibody fragment–alkaline phosphatase conjugate for direct detection of toxoplasma gondii parasites"
10:40 - 10:50	Nacira LAAMIRI	O2 " A new one step multiplex real-time rt-pcr for simultaneous detection and quantification of the most important avian respiratory viruses"
10:50 - 11:00	Mouna BOUKSILA	O3 "Exploration of bone markers in hemodialysis patients "
11:00 – 11:15	Discussion	
11:15 – 11:30	Pause-Café	
11:30 - 11:40	Azza SELLAMI	O4 "Optogenetics method to test memory"
11:40 - 11:50	Rym EL FESSI	O5 " Kbot55, purified from Buthusoccitanustunetanus venom, represents the first member of a novel α -KTx subfamily"
11:50 - 12:00	Jihene JABRI	O6 " Effect of chemical pretreatment and fibrolytic enzymes supplementation of sunflower head byproduct on in vitro ruminal fermentation"
12:00 – 12:15	Discussion	
12:15 – 12:45	Session II :SessionPosters	
12:45 – 13:45	Pause déjeuner	
Après Midi		
13:45 – 17:00	Thématique II : Bio-informatique, Biomathématique, Bio-statistique	
13:45 – 14:45	Dr. Houcemeddine OTHMAN	Conference 2: "The delusive side of computational biology and the bad science behind bioinformatics"
14:45 – 17:00	Session III Chairpersons : Dr. Kais GHEDIRA et Dr. Oussema SOUIAI	
14:45 – 14:55	Manel GUIDER	O7 " Knowledge extraction from microarrays "
14:55 – 15:05	Zeineb MOUSSA	O8 " Drug repurposing towards the identification of novel anti-Leishmania molecules targeting the Methylthioadenosine phosphorylase"
15:05 – 15:15	Emna HARIGUA SOUIAI	O9 "Leisionia: A toolbox dedicated to the collection and analysis of epidemiological and clinical data on cutaneous Leishmaniasis"
15:15 – 15:30	Discussion	
15:30 – 15:45	Pause Café	
15:45 – 16:00	Dr Alia BEN KAHLA	Présentation du projet H3ABionet
16:00 – 16:10	Khadija EL-MATTELI	O10 " Mathematical modeling and oncology:Modeling heterogeneous solid tumor growth in its local environment"
16:10 – 16:20	Hela ABID	O11 " <i>Leishmaniainfantum</i> 5'-methylthioadenosine phosphorylase presents relevant structural divergence to constitute a potential drug target"
16:20 – 16:30	Lilia ROMDHANE	O12 "A CNV map of the Tunisian population"
16:30 – 16:45	Discussion	

Jeudi 19 Avril 2018

Matin

09:00 – 12:15	Thématique III : Maladies Infectieuses	
09:00 – 10:00	Dr. Christen RUNE STENSVOLD	Conference 3 : "Using molecular methods to understand better the clinical and public health significance of the common parasites <i>Blastocystis</i> and <i>Dientamoebafragilis</i> "
10:00 – 12:15 Session IV Chairpersons : Dr. Imene BEN DHIFALLAH et Dr. Jamila GHRAB		
10:00 – 10:10	Sarra HAMROUNI	O13 " Evaluation of t cell responses elicited by multiepitope peptide vaccine candidates in individuals with healed cutaneous <i>Leishmaniasis</i> "
10:10 – 10:20	Wiem BENAYED	O14 "Experimental transmission of zika virus by ochlerotatuscaspius and ochlerotatus detritus from Tunisia and aedesalbopictus from Lebanon"
10:20 - 10:30	Insaf BEL HADJ ALI	O15 "Dipeptidyl peptidase III: a novel marker to investigate <i>Leishmania</i> species evolution and taxonomy"
10:30 – 10:40	Rim AOUINI	O16 "Cocultivation of avian influenza virus and avian infectious bronchitis virus in chicks: Interaction study between the two viruses"
10:40 – 11:00	Discussion	
11:00 - 11:15	Pause-café	
11:15 – 11:25	Yosr Zina ABDELKRIM	O17 "Biochemical and biological validations of small inhibitors identified by virtual screening of <i>Leishmania</i> eukaryotic initiation factor 4A"
11:25 – 11:35	Manel GHARBI	O18 "Prevalence, virulence and antimicrobial susceptibility of <i>Campylobacter</i> in broiler chicken in Tunisia"
11:35 – 11:45	Heger SOUGUIR OMRANI	O19 "Natural <i>Leishmania</i> infection in <i>Paraechinus aethiopicus</i> (Ehrenberg 1832) and <i>Atelerix algirus</i> (Lereboullet 1842) hedgehogs: possible reservoirs of endemic leishmaniases in Tunisia"
11:45 - 11:55	Zied BOUSLAMA	O20 "Spatio-Temporal expansion of rabies in Tunisia, 2011-2016 "
11:55 – 12:15	Discussion	
12:15 – 12:45	Session V : Session Poster	
12:45 – 13:45	Pause déjeuner	
Après midi		
13:45 – 15:45	Youssef FENNIRA	Workshop : "Comment préparer un bon dossier de candidature »
15:45 – 16:00	Pause-Café	
16:00 – 17:30	Session Breakthrough	
19:00 – 21:00	Diner Gala	

Vendredi 20 Avril 2018

09:00 – 11:00	Thématique VI : Cancer, maladies génétiques et prédispositions	
09:00 – 10:00	Dr. Hamdi MBAREK	Conference 4 : "Genetic influences on fertility: What can we learn about female fertility from genetic studies of twinning"
10:00 – 11:00 Session VI Chairpersons : Pr. Melika BEN AHMED et Dr. Hanen CHELBI		
10:00 - 10:10	Soumaya SOUID	O21 "First bioguided discovery of photosensitizers from the Tunisian <i>Ziziphus lotus</i> as inhibitory leads of breast tumor growth <i>in vitro</i> and <i>in vivo</i> "
10:10 - 10:20	Ghada BOUGUERRA	O22 "Erythrocyte membrane scrambling by phosphatidylserine externalization in Glucose-6-Phosphate-deficient patients"
10:20 - 10:30	Nouha SETTI BOUBAKER	O23 "LET 7C expression in predicting bladder cancer prognosis in Tunisia"
10:30 - 10:40	Cherifa AYARI	O24 "Poly(I:C) potentiates Bacillus Calmette-Guérin immunotherapy for bladder cancer"
10:40 – 11:00	Discussion	
11:00 – 11:15	Pause-Café	
11:15 – 11:30	Pr. Samir BOUBAKER	Présentation du Centre Régional de Formation (OMS-TDR-EMR) de l'IPT
11:30 - 12:30	Clôture et remise des prix
